Company Profile

# About Electric Design Projects

Kosta, our founder, applies four decades of electrical experience to ensure Electric Design Projects are industry leaders. Since moving from Europe 15 years ago and establishing Electric Design Projects in Australia, his continued attention to detail and quality workmanship has earned him the trust of countless customers in Sydney and across New South Wales.

Kosta's extensive experience means he can just as readily judge what colours and positioning are best suited for any internal and external lighting system for Residential and Commercial places and finds a solution for any electrical problem. Supported by a team of first-rate residential and consumer electricians, it's no surprise Electric Design Projects has won so many customers and projects.

EBIX AUSTRALIA ACCREDITED SUB CONTRACTOR - ID#78060
